

Covenant Ranch Feed & Tack is a small family business owned and operated by Elwin & Juanita Funk, together with their daughter Micaella. They are located at Kola, Manitoba on the top of the Pipestone Valley.

Juanita grew up in the Kola area, and it was here that her passion for horses began. Her family ran cattle with the help of horses and here she was also immersed in pasture riding, 4-H, horse shows, many family trial rides and training horses throughout her growing up years. Her family has also enjoyed many trips, trail riding in the Rocky Mountains of Alberta or Wyoming. In the year 2000, Elwin and Juanita began their involvement in the Manitoba Ranch Rodeo Association. This continued until 2014. Their love for horses and a western lifestyle was quickly adopted by their daughter Micaella, and soon they found themselves involved in the Manitoba Barrel Racing Association as well as the Manitoba High School Rodeo Association.

Today, Covenant Ranch Feed & Tack exists due to their passion for horses. This business began as a result of Juanita's desire to ensure that the horses they relied on for so much of their extra-curricular enjoyment, was cared for nutritionally. Like any athlete, a horse requires a well balanced diet to perform at its peak.

With a vast array of equine nutritional products available, Juanita settled on one that was backed by equine nutrition experts. These experts not only possessed an extensive knowledge of a wide variety of equine products including their own, but could also provide sound information and advice on any number of equine health and performance concerns. Thus, Buckeye Nutrition became the feeding program of choice at Covenant Ranch in 2011. With the

results of the feed far exceeding their expectations, Elwin and Juanita became dealers of the Buckeye product.

Having the Buckeye Feed product available for sale, “snowballed” into also making everyday tack items available to the public. The two just seemed to go hand-in-hand. Today Covenant Ranch Feed & Tack strives to provide quality products that will benefit both you and your horse. They offer a wide variety of products including Buckeye Nutrition feed, tack, some rustic furniture and household/giftware items. You will find name brands such as Professionals Choice, 5 Star, Martin, Weaver, Back on Track, Teskey’s, Tough 1, Classic, Cactus, Fastback, Lonestar, Omega Alpha, amongst others on the shelves. As an addition to the feed, they also provide free equine body condition evaluations and nutritional assessments.

Covenant Ranch exists due to a genuine passion for horses and desire to see you and your horse succeed both in and out of the performance arena. Whether it is your horse’s nutritional needs that need to be met, or items of tack and equipment that you require, Elwin & Juanita look forward to the opportunity to serve you.
